

soUNDscore call for submissions:

In November 2011, HELPINGER Press will release its first *soUNDscore anthology* as a PDF and in print book.

We invite you to submit your soUNDscores to contact@soundundtext.com.

But first, what is a soUNDscore!?

A soUNDscore is anything that might assist or inspire composition and performance with the *soUNDtext* word processor. Often soUNDscores take the form of texts (to be copied and pasted into *soUNDtext*) or textual instructions (from strict to opaque). We hope that you will help us challenge and broaden our understanding of the soUNDscore.

Examples of soUNDscores can be found in the *soUNDtext User's Manual* available with your *soUNDtext* [free download](#) (67 MB direct download) and as a PDF and in print [here](#).

A few specifics:

1. There is no page limit to your submission.
2. Submissions can take any form you can email or transfer by other means over the Internet.
3. Please direct all submissions, questions, and queries to contact@soundundtext.com
4. Contributors will receive one free copy of the in print book.
5. Deadline: **October 1, 2011**
